THECHANDELIER

NEW collection

The Chandelier designed by Alfonso de la Fuente

ALMA LIGHT presents THECHANDELIER, an impressive collection whose most visible feature is its large volumetry and aesthetic look in the three versions that compose the collection as well as its curved shapes and its original design, which starts as a remake of the classic Italian crystal chandeliers . The ovoid screens give it a modern air and the iron tube of its structures transmits strength and a solid complexion, typical of the modern designs of the 20s

The THECHANDELIER collection consists of 3 models:• Small chandelier pendant with 3 arms in 1 height (580x355mm)• Medium chandelier pendant with 9 arms in 2 heights (1080x822mm)• Large chandelier pendant with 15 arms at 3 heights (1080x1125mm)
