## BIG BROTHER

Design by Oriol Llahona

### **Big Brother** designed by Oriol Llahona

BIG BROTHER is a large format floor lamp with body and shade made of fabric. It is a huge source of light that illuminates throughout all its length, from head to toe. What we like about BIG BROTHER is the idea of a big person, a giant companion, a bright bodyguard. As if placing it in a space, we were endowing it with a pleasant protective, an almost human presence. We think it is ideal as a complement to a sofa or reading armchair in homes or hotels, or as a welcome lamp in a restaurant. BIG BROTHER measures 180cm in height and the shade has a diameter of 70cm. It has a solid internal metallic structure that is covered with an advanced white translucent fabric of polyester fiber. There is, on demand, the possibility of selecting other fabrics, also printed. It incorporates light inside the upper shade, as well as in the base, both with E27 lamp holder.

It is ideal to complement sofas or reading armchairs in homes or hotels, or to be used as a welcome lamp in hospitality facilities.

The shade is made using a 100% Polipropylene nonwoven textile, flame retardant, hydrophilic, UV and antistatic. It can also be customized printing it, opening a full world of design possibilities.
