DISCONTINUED COLLECTION

NOTE designed by Oriol Llahona - Discontinued

Everything comes to an end.... We regret to announce that our NOTE collection has not been able to adapt well to the evolution of Led technology, a fact that has forced us to stop manufacturing it. The R7s lamps are the great victims of this change since it has not been possible to develop a lamp with a similar performance to its halogen version, remaining in very low limits of light intensity. The NOTE luminaire shone splendidly with the halogen lamp and was hit to death with its LED version, so poor in light. This has forced us to have to withdraw it from our catalogue after 10 years of indisputable success. But it is not all bad news: our POLE LED luminaire has taken over with force, being a luminaire specially developed for LEDs, offering a powerful light intensity and more than fulfilling its work as indirect light

NOTE designed by Oriol Llahona - Anulada

Todo llega a su fin.... Lamentamos anunciarte que nuestra colección NOTE no ha podido adaptarse bien a la evolución que ha supuesto la tecnología Led, hecho que nos ha forzado a dejar de fabricarla. Las lámparas R7s son las grandes damnificadas de este cambio ya que no

se ha conseguido desarrollar una lámpara con un rendimiento similar a su versión halógena, quedando en límites muy bajos de intensidad luminosa. La luminaria NOTE brillaba espléndida con la lámpara halógena y quedó golpeada de muerte con su versión LED, tan pobre de luz. Esto nos ha forzado a tener que retirarla de nuestro catálogo después de 10 años de éxito indiscutible. Pero no todo son malas noticias: Nuestra luminaria LED POLE le ha cogido con fuerza el relevo, al ser una luminaria especialmente desarrollada para LED, ofreciendo una potente intensidad luminosa y cumpliendo con creces su labor de luz indirecta.
