

ALMA light

Barcelona

[View online version](#)

When the first mild days of the year arrive, we open the windows, dress up the terrace or garden and look for that magic that only happens on warm outdoor nights. ALMA Light's USB fixtures are designed to create that moment when conversations flow, after dinner chats linger, and outdoor spaces come to life.

All our models offer several hours of autonomy and recharge via USB. You can move them wherever you like: on a terrace table, lighting up a family gathering in the garden, beside a book on a porch, or on a restaurant counter, turning any corner into a small refuge.

TRIBECA USB is an alabaster sphere that seems to float; its soft, elegant light brings a warm serenity that invites you to stay a little longer. PATIO is durable, gentle and perfect for both hospitality and home use, providing uniform and understated illumination. NAUTIC and CUADRAT offer a stable, balanced design and a discreet, very Mediterranean light; both can be placed on a surface or hung. And BELL is small, charming, intimate, and tropical, like a tiny lantern encouraging you to slow down and enjoy the moment.

If you want to discover more, explore our USB luminaires on the website and let yourself be inspired.
