

# ALMA light

Barcelona

ALMA Light's Big Brother floor lamp is a sure thing for any place. It is a design by Oriol Llahona, a large-format concept that makes an impact in any space in which it is involved. Big Brother has its own personality and brings a striking, luminous, almost human presence, which lights up in its entire width and length, from head to toe.

It is made up of a body 180cm high and with a maximum diameter of 70cm, formed by two pieces: the bottom shade and the top shade. The two shades are made of white fabric, an advanced white translucent polyester fiber cloth. Both are mounted on a solid internal metal structure that keeps the whole well cohesive. There is the possibility, on request, of customizing it with other fabrics or even with a corporate pattern. It includes E27 lamp holders both inside the bottom shade (one) and the top shade (two) that can be conveniently dimmed by means of a built-in dimmer switch, and has an original leather handle for us to be able to grab the floor lamp and easily move it from place to place.

Big Brother is ideal as a highly decorative complement to a living room, or as a welcome lamp in a retail or hospitality environment.
