OUTDOOR LIGHTING

ALFORD PLACE
ELSTEAD

Alford Place 4 light, designed by Hinkley, is part of the Quintiesse Collection from Elstead. It has a clean and classic open cage design, providing excellent illumination from all sides. The fittings are finished in a Museum Black and the clear seeded glass shades help to provide an IP44 rating to allow it to be used outside. This range also has a larger six light linear pendant and a full range of wall lanterns, pedestals, and posts.

FOLD OUT
ALMA LIGHT

Fold Out completes the Fold collection of lamps by Andrea Gelpi (Blaumel Studio). The battery-operated and IP65 rated lamp is available in two sizes: large (45cm high), and small (30cm high). The inner shade is a PMMA hemisphere that houses an integrated 3W 290lm 3000K CRI>80 outdoor, dimmable LED.

FIREFLY
HUMBLE

Humble has managed to capture the atmosphere of candlelight in a new wireless design lamp. The firefly that appears to be under the shade provides a subtle light accent and shadow play. Firefly is dimmable (three settings), available in two variants (bronze or gold colour) with a frosted or smoked shade. All lamps are waterproof IP65-certified.

TRUNK LIGHT
DUNCAN MEERDING

Trunk Light is a continuation and literal growth in the award-winning Cracked Log Light series. The Trunk Lights are approximately 300mm diameter and can be made between 0.8 and 2-metres in height. Made in Tasmania from macrocarpa - a timber chosen for its rot-resistant properties and beauty. Each Trunk Light has a dot free multi-directional custom-made IP65+ light source, with options for installation in various outdoor settings.

CLARA
CONTARDI

Designed by Chiara Caberlon, Clara has given the classic lantern a modern practical twist thanks to its rechargeable USB-C battery body, with a life of up to eight hours. In the medium and large versions, the light source can be removed with a handle, for use as a torch. Available with marine grade matt white lacquer or bronze painted structure, and the diffuser in Vienna straw-effect resin finish, Clara is IP65 rated.

CIRC
ESTILUZ

Circ is an indoor/outdoor lamp designed from a sphere of enveloping light, which dialogues with different wrought iron supports to configure the identity of each element of the collection. The outdoor versions of Circ are manufactured from a resistant screen of polyethylene, whereas the indoor versions incorporate glass. The portable model has a six-hour battery life, equipped with a charger through induction.
