Ophelia ALMA Light

Design Andrea Gelpí & Iratxe González

[View online version](#)

Did you know that the OPHELIA table lamp by ALMA Light allows you to create different environments by manually moving the four slats that make up its shade? You will be able to play with it to achieve different types of lighting, because the pieces of its shade rotate on the base in an independent, easy and clean way, and allow you to hide the bulb totally or partially... or quite the opposite: show it, if you need more light.

Have a look at the video!
