In the heart of Harley Street, The London Clinic has shaped the renovation of its spaces within an iconic setting that offers an exclusive and welcoming healthcare experience. Our THEPALM chandelier becomes an essential part of the lighting project, accompanying visitors throughout their journey.

Installed in the reception area and several rooms, THEPALM brings an elegant and serene presence, blending naturally into the warm and functional atmosphere that defines this prestigious clinic. Its design enhances the sense of wellbeing and comfort, helping to humanize spaces dedicated to the care of people.

We are proud that an ALMA Light luminaire, made in Barcelona, is part of such a distinguished international project that places its trust in quality and design. THEPALM is yet another example of how lighting can transform healthcare environments into friendly, approachable and welcoming spaces.
