At ALMA Light we are thrilled to share a very special project: TRIBECA has been chosen to accompany the experience of rest at the Luxury Hotel Rosewood Miyakojima, a five-star establishment located on the beautiful Japanese island of Miyako.

The design of TRIBECA, with its minimalist spirit, artisanal touch and Art Déco inspiration, combines noble materials in a perfect balance of lightness and solidity. The alabaster sphere, with natural veins that make each piece unique, conveys a gentle warmth that invites relaxation. The iron structure integrates seamlessly into the refined aesthetic of the hotel.

In this project in Japan, the presence of an ALMA Light fixture confirms what we have always stood for: our manufacturing is 'Made in Barcelona', but our market is the world.
