

ALMA light

Barcelona

[View online version](#)

At ALMALight, we design and manufacture contemporary decorative luminaires made in Barcelona, with a focus on honest design, high-quality materials and close collaboration with professionals.

We believe that lighting a space is much more than projecting light: it is about supporting those who transform places into experiences. In this spirit, our new collaboration program for architecture, interior design, and design studios – **ALMALight PRO · Creators of Light** – has been created with a dual purpose: to offer technical lighting consultancy, and to give visibility to your projects through their publication on our website, social media, and industry platforms.

If you share our passion for design, quality, and well-crafted light, join **ALMALight PRO** and become part of the community of creators who illuminate design.
