

ALMA light

Barcelona

[View online version](#)

PICA, designed by Josep Novell and Josep Puig for ALMA Light, is a piece that needs no embellishment to stand out: **a floor lamp that blends the strength of forged steel with the softness of a height-adjustable cotton shade.**

The shade, available in white, dark grey, or fully customizable colors, **slides along the stem** to adapt the lighting to every moment. Its gentle, enveloping glow turns any corner into a warm, inviting space.

Inspired by the old spear known as 'pica', its structure evokes the power of traditional forging, reinterpreted with a contemporary and understated language. The result is **a timeless design that fits naturally into interiors of all kinds** —industrial, mid century, Mediterranean, classic, contemporary, rustic— with equal ease.

PICA offers presence, functionality, and **an aesthetic that never goes out of style**. A luminaire by ALMA Light created to accompany, to integrate into the space, and to make it its own with subtlety and character.
