ALMA Light

The famous Michelin Guide highlights in its pages the Blue Bay Marcel Ravin Restaurant in Monaco, which has two of its famous stars. This restaurant is located on the grounds of the Monte-Carlo Bay Hotel & Resort in Monaco. His chef is the prestigious Mr. Marcel Ravin, a chef originally from Martinique who is committed to creative cuisine inspired by the Creole tradition of his island of origin, with the incorporation of touches of Mediterranean cuisine.

The Blue Bay Marcel Ravin restaurant has a large terrace by the sea, where the dishes with Antillean connotations are served in the light of our battery-operated Bell table lamp (USB rechargeable) whose iroko wood contributes to achieving that tropical atmosphere that combines so well with that Caribbean-inspired cuisine. Bell is a small wireless table lamp with an exotic, summery and elegant air, capable of gracefully illuminating a restaurant table or outdoor terrace, or being used as ambient lighting in chill-out spaces. It is made with noble materials, which makes it a refined product that can be perfectly integrated into select environments; It has IP45 and its light dimmable by means of an 'on/off/touch dimmer' switch located in the base, so it can adapt to the atmosphere that the occasion requires.

We love how it looks. And you? What do you think?

Do you have a project with photos that you would like to share?
