## **Totem II in Miami**

[View online version](#)

The iconic restaurant SRA.MARTINEZ, located in the Coral Gables district of Miami, offers a menu with Spanish and Mediterranean roots with 'Florida-style' touches, combining a relaxed atmosphere and cheerful cuisine with lively live music sessions. The popular establishment began its journey in 2008 and, after a closure that lasted some time and after the change of address to its current location, SRA.MARTINEZ has reopened its doors with its traditional menu of tapas and dishes, and a fabulous interior design.

In the new decoration, around twenty suspensions from the TOTEM II collection by ALMA Light take center stage, illuminating and beautifying the reception and bar area with their striking design that perfectly integrates iron and glass, providing a glamorous retro air and an interesting balance between solidity, shine, and transparency.

The TOTEM II suspension collection includes two pendants: one 50 cm long, which is precisely the one that is part of this project, and another 25 cm. The structure is available in black and bronze, although in this case, the business owners, chef Michelle Bernstein and her husband David Martinez, preferred to customize the finish in satin nickel. The shade is made of transparent borosilicate glass and the light sources are integrated LED modules.

**We love this project, and you?**
