Project: Hotel Convento Aracena (Aracena - Huelva, Spain)

ALMA Light

[Ver versión online](#)

Located in the heart of the Sierra de Huelva, the Hotel Convento Aracena & Spa is a 4-star**** hospitality establishment located in an old convent from the 17th century, now completely restored.

The renovation of the building was very respectful of the architectural heritage of the convent, maintaining its stone walls, its areas such as the cloister or the church and its general physiognomy, and added all the necessary elements for the well-being of its clients. Both inside and outside, customers can breathe peace and tranquility, and the select restaurant and the SPA section stand especially out. The bedrooms are decorated with sobriety, counting on our HOTEL wall light with cotton shade and reading arm, which gives light to the headboard of the beds. This project included the standard model with a black shade, as well as a special batch with a white shade.

The coordination of the project and the acquisition of the light fixtures was carried out by our client EDIREINSE SL from Seville. The images are courtesy of the hotel website.

We love how it looks. And you? What do you think?

Do you have a project with photos that you would like to share?
