TRIBECA CHANDELIER, an 'à la carte' pendant

The TRIBECA CHANDELIER collection by ALMA Light is a set of large suspensions made with noble materials (iron and alabaster), that counts on 3 structures that can be combined with each other.

Designed by Jordi Llopis, the collection is based on three rings of 6, 9 or 12 shades respectively. Each ring can be installed individually, in which case we have a beautiful single pendant that elegantly illuminates any space, or it can be installed as a double pendant with two rings, as a triple chandelier with three rings... or larger! These rings can be the same size or have different diameters. TRIBECA CHANDELIER is therefore a collection of "à la carte" fixtures that allows a large number of combinations that the interior designer can configure, based on just three structures.

TRIBECA CHANDELIER is made of textured black painted iron, lampshades of 12cm-diameter polished natural alabaster, and includes integrated LEDs (4.5W 2700K 270lm) that can be supplied on-off or dimmable by TRIAC. The driver is always included, housed inside the ceiling rose.
