The global success of Big Brother

[View online version](#)

From luxury residences and hotels in the Emirates to modern offices in Europe, the majestic BIG BROTHER floor lamp has conquered projects worldwide thanks to its versatile design and ability to transform spaces. Numerous interior designers and decorators in various countries have chosen this light fixture for its perfect combination of aesthetics and functionality.

BIG BROTHER stands out for its unique configuration with two white fabric shades that illuminate from top to bottom. When placed, it creates a cozy atmosphere: its imposing presence and soft lighting create unique environments, ideal for a wide variety of settings.

It has a height of 180cm. Its internal iron structure supports the two superimposed white shades. The upper shade, with a diameter of 70cm, houses two E27 sockets. The lower shade, which serves as the base and houses the third socket, includes a leather handle for easy movement around the space. Additionally, BIG BROTHER features a switch-dimmer to adjust the light intensity as needed.
