Custom finishes and versions: For finishes / colors different from the standard ones, special designs or customized formats, please contact ALMA Light.

La colección de colgantes Drop LED es un clásico de ALMA Light, uno de sus buques insignia, su luminaria más conocida. Diseñada por Cristian Cubiñá, destaca sobre todo por su famosa pantalla de cristal transparente en forma de gota. En comparación con su antecesora, la colección Drop con tecnología halógena (definitivamente descatalogada), la actual Drop LED permite un menor consumo y no presenta calentamiento.

Lo que nos encanta de la Drop LED es su brillo, su luminosidad, su vistosidad, su presencia. Drop LED es bella y llamativa, y cuando está encendida aporta un alto grado de luminosidad y aporta un distinguido toque de diseño a cualquier espacio. Es ideal para ser colocada en viviendas, ámbitos comerciales y espacios de restauración, y combina especialmente con interiores contemporáneos, selectos y modernos. La Drop LED individual tiene una longitud de 170cm. La estructura es de hierro cromado y la pantalla es de cristal soplado borosilicado transparente con forma de gota. Incluye el driver, que va alojado en el interior del florón. El portalámparas es G4, y la bombilla LED (no regulable en intensidad) de 1,1W 95lm 2700K CRI>80 va siempre incluida.

The Drop LED pendant collection is a classic from ALMA Light, one of its flagships, its best-known light fixture. Designed by Cristian Cubiñá, it stands out above all for its famous drop-shaped transparent glass shade. Compared to its predecessor, the Drop collection with halogen technology (definitely discontinued) the current Drop LED allows for lower consumption and does not heat up.

What we love about the Drop LED is its brightness, its luminosity, its attractiveness, its presence. Drop LED is beautiful and striking, and when turned on it provides a high degree of luminosity and adds a distinguished touch of design to any space. It is ideal to be placed in homes, commercial areas and restaurant spaces, and combines especially with contemporary, select and modern interior designs. The individual Drop LED has a length of 170cm. The structure is made of chromed iron and the lampshade is made of transparent drop-shaped borosilicate blown glass. It includes the driver, which is housed inside the ceiling rose. The lamp holder is G4, and the 1.1W 95lm 2700K CRI>80 LED bulb (not dimmable) is always included.
