**Custom finishes and versions: For finishes / colors different from the standard ones, special designs or customized formats, please contact ALMA Light.**

LED OVAL es una colección de colgantes protagonizada por una pequeña pieza metálica de forma oval con un LED en su interior que ilumina hacia abajo.

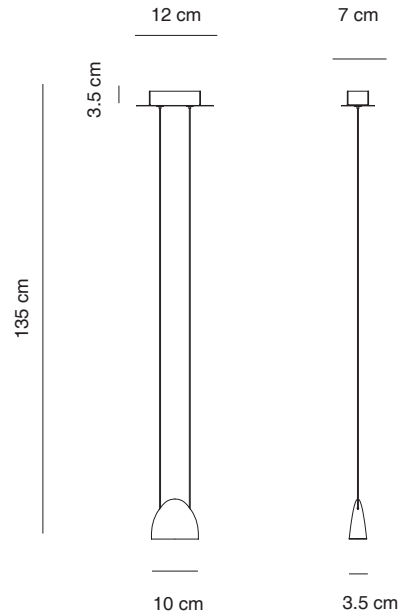

Lo que nos cautiva de la LED OVAL es su aire discreto y estiloso, y la posibilidad de regular en altura cada una de sus luces, lo que permite instalarla con todas a una misma altura o bien a diferentes niveles, consiguiéndose formaciones creativas y originales. La forma de sus pantallas y el hecho de que la luz se proyecte verticalmente nos hacen pensar en un conjunto de delicadas linternas enfocando hacia abajo, pero sin deslumbrar. LED OVAL es ideal para lugares que requieran suspensiones individuales o lineales como la barra de un bar, el mostrador de una tienda, la recepción de un hotel, encima de un mueble aparador, sobre una mesa de comedor o isla de cocina...

La colección LED OVAL consta de un modelo individual y otro con florón lineal. La estructura es de acero inoxidable en acabado pulido espejo. La pantalla está realizada en fundición de aluminio igualmente pulido espejo, y en su parte inferior lleva un difusor de metacrilato que filtra la luz del potente LED. Cada pantalla contiene un LED integrado Citizen 3W 250lm 2700K. El driver está incluido en el interior del florón.

**LED OVAL is a collection of pendants with a small oval-shaped metal piece with an LED inside that illuminates downwards.**

**What captivates us about the LED OVAL is its discreet and stylish air, and the possibility of adjusting the height of each of its lights, which allows it to be installed with all of them at the same height or at different levels, achieving creative and original formations. The shape of its shades and the fact that the light is projected vertically make us think of a set of delicate flashlights focusing downwards, but without dazzling. LED OVAL is ideal for places that require individual or linear suspensions such as a bar or a store counter, a hotel reception, above a sideboard, a dining table or a kitchen island...**

**The LED OVAL collection consists of an individual model, and another with a linear canopy. The structure is made of stainless steel in a mirror polished finish. The shade is made of cast aluminum, also mirror polished, and at the bottom it there is a methacrylate diffuser that filters the light of the powerful LED. Each shade contains an integrated Citizen 3W 250lm 2700K LED. The driver is included inside the rosette.**
